About Us

A fresh approach to Portfolio Management.

You will benefit from having a single point of access to a variety of investments. Additionally, you can hold investments in several currencies and have access to investments from all over the world because our platform was created exclusively for internationally based investors.

The dynamic character of our multi-dimensional portfolios, can easily accommodate your investment needs. With full market data support and real-time transaction-based Portfolio Management, Greenland Securities gives you quick and simple access to an immediate overview of your portfolio. Our cutting edge trading strategy examines your investments and trades in real-time.

Best Awarded Company

2020–2022. Consistent Excellence and Leaders in Equities Trading. With our backing as a financial powerhouse in Asia and our growing presence across the Americas and Australasia.

Portfolio Management

Our clients gain access to international financial markets which meet a range of objectives and risk appetites.

Investment Planning

We focus on long-term thinking and a global approach with leading investment expertise as well as proactive management.

Stock Market Trading

There are no hidden charges, yearly fees, trading fees or transfer fees for the client to pay across all of the core portfolios.

Strong Track Record

Proven performance track-record since May, 2011 when our portfolios were first launched and introduced.

Services

A wealth of skills with a single philosophy.

Consistency and a recognition that continuity of services is what establishes and sustains good relationships are the cornerstones of Greenland Securities success. Our Strategic Planning Approach, serves as a formulaic manual for creating the best financial plans that are tailored to the unique objectives of each client.

We think it's critical to establish trusting connections with our customers in order to create the best financial plan possible for each unique circumstance. Our financial planning solutions are flawlessly matched to your individual goals and desires thanks to our industry expertise and special process.

Legacy Planning

Legacy planning is an important part of making sure that your assets are distributed among your loved ones.

Pension Accumulation

Our extensive experience working with pension plans and their advisors differentiate us in this space.

Tax Management

Knowing and addressing the effects of client-specific tax circumstances is an appropriate measure of performance.

Retirement Planning

Retirement plans are financial instruments that can shape your hard-earned income into savings for your post-retirement life.

Education Fees

We help develop flexible long-term savings plans to finance higher-education fees with payments set monthly, quarterly or yearly.

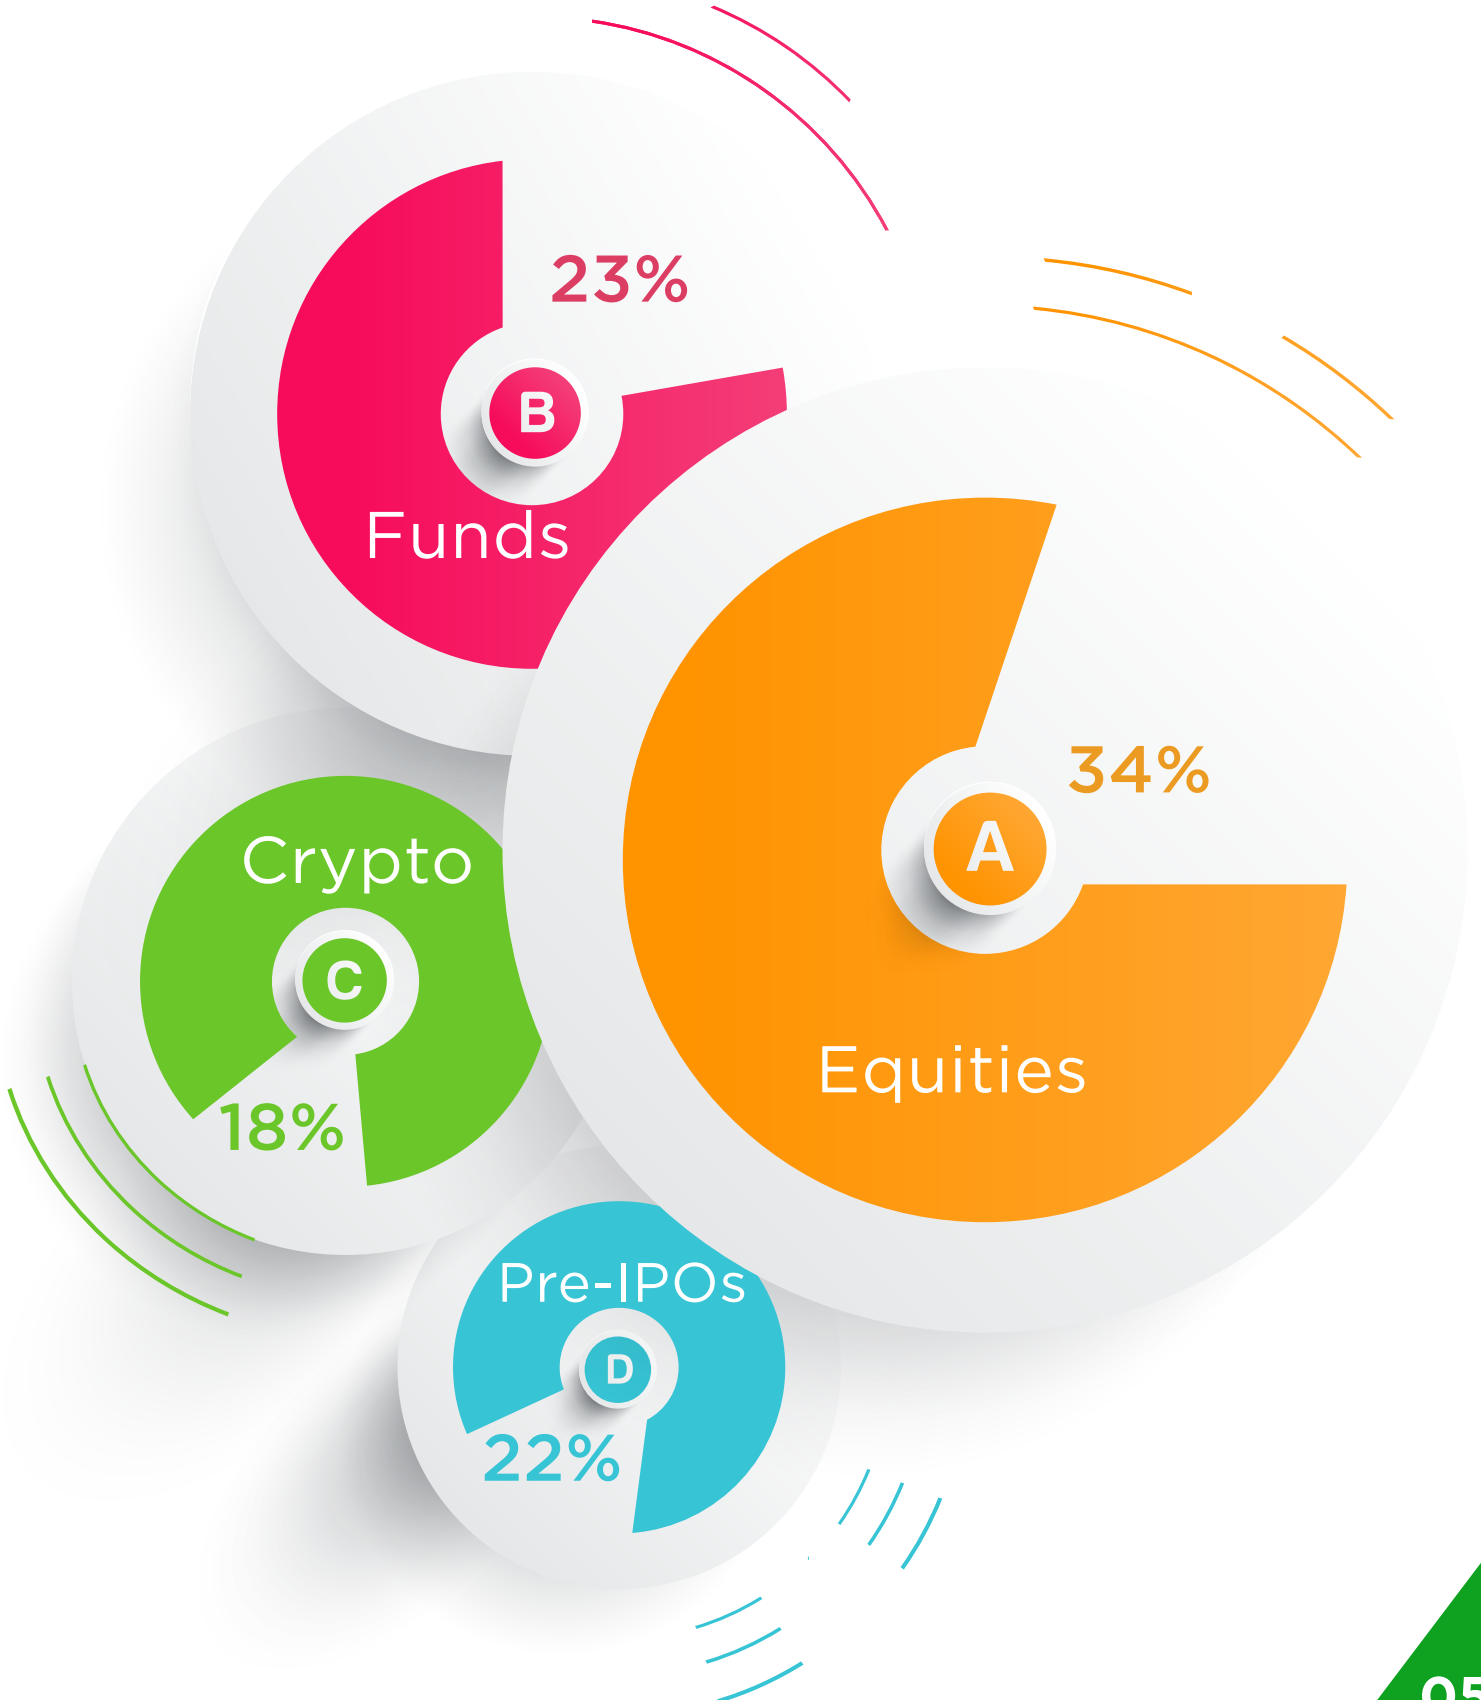

Business Growth

Unlock your business growth potential by creating a plan of short and long-term goals to help expand your business.

Investments

Identifying solutions which best suit you.

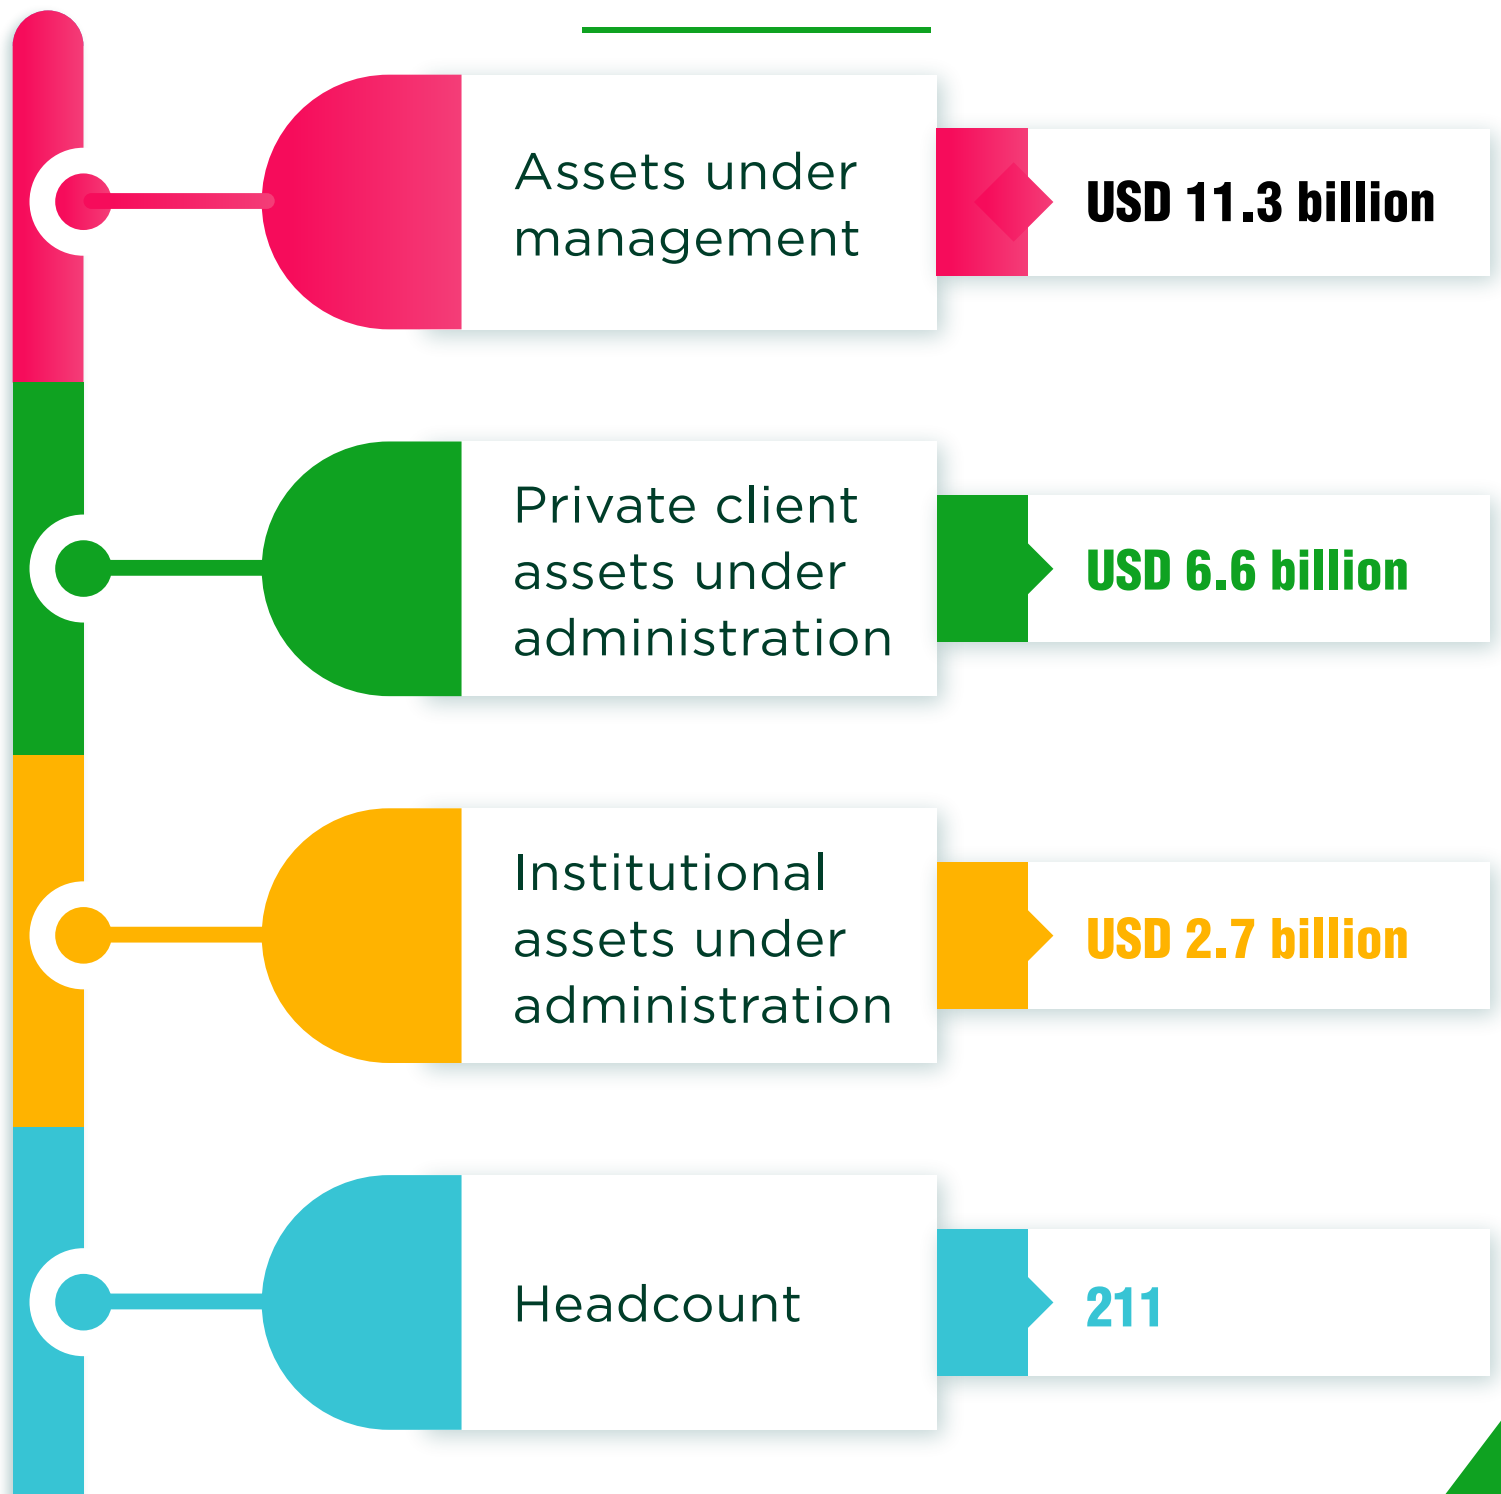

Your Portfolio Manager will offer bespoke advice based on your aspirations by selecting the right mix of investments and calibrate against the level of risk you are comfortable with.

Greenland Securities assets under management.

We develop customized strategies with the flexibility to adjust assets to market events and volatility. Each of our portfolios includes diversified exposures that we manage against a variety of benchmarks.
